DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance: Warner U.S. Patent 5,101,141 does not provide a sensor that is capable of wireless communication with an identification element. Warner also does not disclose at least one sensor on the frame adapted to sense the presence of an identification element *on* the apparel of a person intending to operate the machine. The allowability, at least in part, resides in these facts.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
